

RSCDS Winter School 2018 Class Selector

Intermediate	This class will continue to develop steps and formations. It will focus on all aspects of technique: footwork, handing, phrasing, transitions and teamwork. Some dances from the evening programmes will be taught. The first 3 classes will be taught by the same teacher, with a different teacher on the last morning.
Advanced	This class will continue to develop steps and work on more advanced formations, handing, phrasing, transitions and teamwork. More challenging dances will be taught in this class.
Low Impact	This class will only take place if there is sufficient demand. This class is for those who dance at a high standard of technique and expertise but prefer a class that is less intense. A high level of stamina will not be expected in this class.
Very Experienced	This class is for dancers who know all steps and formations and can follow instructions easily. Technique will be taught and a high standard of dancing will be encouraged but the precision and energy levels required in the Very Advanced Class won't be expected in this class.
Very Advanced	This class is for dancers who dance at a very high standard with correct rhythm, foot positions and extension in steps and can sustain the energy level for the whole course. All formations in The Manual should be known and danced with precision, good handing and phrasing.
