

The Granite City Reel (new dance)

Dancers stand in rows of 3 facing 3 round the room.

Each row advance for 4 walking steps and retire for 4 walking steps.

Each row advance for 4 walking steps and outside people retire for 4 walking steps while centre people remain facing in the centre.

Dancers in the middle do their own style of dance for 8 bars of music while outside dancers take 16 walking steps to dance round in a square, giving right hand and left hand alternately, beginning by giving right hand to the person opposite.

EITHER

1. Middle person turn right hand person and left hand person alternately

OR

2. All 3 in row dance a reel of three

Taking 8 walking steps and giving right hand to the person opposite, turn that person 1½ times to change places and finish back to back facing a new line of 3 dancers.

All set and giving right hands to the person opposite advance for 4 walking steps to meet another line of 3 dancers.

Please note that WALKING steps are assumed for quick time dances. If dancers wish to be more energetic and use skip change of step, then they would take half the number of steps.
