

Britannia Two-Step

Dancers stand in rows of 3 facing line of dance.

All on LEFT foot tap heel and toe and dance one skip change of step.

All on RIGHT foot tap heel and toe and dance one skip change of step.

Walk forward three steps and kick.

Walk backwards three steps and kick.

Middle person set twice while outside people turn under centre person's arms.

All walk forward three steps and kick.

All walk backwards three steps and kick.

To make the dance progressive instead of all walk backwards and kick, the centre person moves backwards while the outer people remain where they are.

Please note that WALKING steps are assumed for quick time dances. If dancers wish to be more energetic and use skip change of step, then they would take half the number of steps.
