

The Clydeside Reel (new dance)

Dancers stand one couple facing another round the room, A's with partner on right.

All circle to the left and back.

All advance for 4 walking steps, clap hands 4 times, retire for 4 walking steps and stamp feet four times.

Taking 8 walking steps give right hands in a wheel and dance round.

Taking 8 walking steps give left hands in a wheel and dance round.

All set for 4 bars of music then couples facing clockwise make an arch and both couples advance for 8 walking steps to pass over or under the arch to meet a new couple.

Please note that WALKING steps are assumed for quick time dances. If dancers wish to be more energetic and use skip change of step, then they would take half the number of steps.
